

## **Senior Academic GU Pathologist Position NYU Langone Medical Center**

The Departments of Pathology and Urology at NYU Langone Medical Center are seeking to recruit a nationally recognized scholar in GU pathology at the rank of Associate Professor. Candidates must be board certified with excellent diagnostic skills in GU pathology and a strong record of academic achievement in translational or clinical GU pathology. The candidate will be part of the multidisciplinary GU team. Primary responsibilities of this position will be to provide leadership for GU surgical pathology at Tisch hospital with the expectation that scholarly collaborations will be fostered with the Urologic Diseases Center of Excellence, the GU organ site program of the NYU Cancer Institute, and the Smilow Comprehensive Prostate Cancer Center. NY State licensure is required. Salary and rank will be commensurate with experience and accomplishments. NYU is an affirmative action/equal opportunity employer. Qualified candidates should send their curriculum vitae, cover letter, and names and addresses of three references to:

Andrea Hines  
Faculty Affairs Specialist  
Department of Pathology  
NYU School of Medicine  
Smilow Research Building, Room 301  
522 First Avenue  
New York, NY 10016

The Center of Excellence on Urologic Disease focuses on discovering and implementing innovative treatments for the most prevalent urological disorders, including prostate cancer, bladder cancer, urinary tract infection and kidney stone disease. For more information see <http://urology.med.nyu.edu/research/center-of-excellence>

The NYU Department of Pathology traces its origins to the Carnegie Lab at Bellevue, the oldest U.S. laboratory dedicated to the academic study of the pathology of diseases. Today, the Department provides a rich training environment for close to 150 residents, graduate students and postdoctoral fellows in the Research, AP, and CP residency programs, and the Pathobiology, Immunology, and Molecular Oncology graduate programs. Our more than 100 faculty—divided roughly equally between clinicians and scientists—are supported by a research portfolio of more than \$25 million annually. The Department currently ranks in the top 10 Pathology Departments in NIH funding. Further information about the Department can be found at our web site, <http://pathology.med.nyu.edu>
